Font Fabrik

End User License Agreement

Dear Font User

By downloading, accessing, or using the fonts provided to you, you accept these terms and conditions. We would appreciate it if you mentioned our name and the font name in the colophon or imprint of your publication or website. For example: 'Type set in MonoBlubBlub from FontFabrik'.

Rights

FontFabrik grants you a non-exclusive, non-assignable, non-transferable license to use the fonts. All rights to the fonts and all intellectual property embodied in them are retained by FontFabrik. You are not allowed to distribute the fonts or to modify, convert, reverse engineer, decompile, or create derivative works based on them. If you want to modify the fonts for personal use, you have other special wishes, or you are unsure whether the way you want to use the fonts is allowed, please contact sales@fontfabrik.com.

Font Quality

If the fonts are not working like you expect them to, please contact sales@fontfabrik.com. The fonts are provided as is. FontFabrik does not guarantee any results and disclaims all express or implied warranties.

Embedding Securely

If you embed the fonts or install them on an intranet server, you need to do so securely and make sure the fonts are not accessible by end users. Please, for crying out loud, don't put the fonts in public GitHub repositories or on distribution websites like DaFont. That is clearly not allowed.

Termination

If you breach this agreement, then all your rights automatically terminate, you have to immediately stop using the fonts, and in addition to any legal rights FontFabrik has, you will be responsible for all costs that FontFabrik incurs enforcing this agreement.

Liability

You agree that FontFabrik will not be liable for anything bad that happens and will never have to pay for consequential, incidental, or special damages, including any lost profits or savings. However if for some reason some authority like a court or governing body with jurisdiction decides that FontFabrik is liable for something, FontFabrik's liability will never exceed the license fee it received.

Miscellaneous

This document contains the entire agreement relating to its subject matter and supersedes any prior agreements or understandings, whether verbal or written. No modification of this agreement will be valid or enforceable unless it is in the form of a written document signed by FontFabrik. If FontFabrik waives a right, that does not mean it is waived for the future. If any part of this agreement is found void or unenforceable, it will not affect the validity of the rest of the agreement. This agreement is governed by the laws of the Germany and any disputes or legal proceedings will be handled exclusively in Berlin — and by that we mean the Berlin that is the capital of Germany, not the one in Schleswig-Holstein and definitely not the ones in Canada, Russia, South Africa, El Salvador, Antarctica, California, Connecticut, Georgia, Illinois, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Nebraska, Nevada, New Hampshire, New York, New Jersey, North Dakota, Ohio, Pennsylvania, Tennessee, Texas, Vermont, West Virginia, or Wisconsin.

Desktop License

You can install the fonts on computers, as long as the computers are within one company. You can also install the fonts on an intranet server as long as all users are employees who work directly for you. You can embed the fonts into documents, including documents that will be distributed commercially. The embedding bits in our fonts allow print and preview. If you need editable embedding turned on (to enable users who do not have the fonts installed to edit documents with embedded fonts), then please contact sales@fontfabrik.com.

Web License

You can use the fonts on websites with CSS @font-face. You are not allowed to use conversion tools on the fonts; you can only use WOFF and WOFF2 files that were provided to you by FontFabrik. The use of other formats such as TTF and OTF is not allowed on the web.

App License

You can embed the fonts into apps.

EPUB License

You can embed the fonts into eBooks and commercially distribute them.
